Experience

Studio Technical Lead

BETC FULLSIX, Paris (France), Oct. 2015 - Present

Pre-Sale: technical recommendation, budget, hosting infrastructure. Creative and commercial teams support.

Project Setup: Design Reviews, technical documentation investigation (API, hosting, accessibility, 3rd party security policy...), final budget, PoC development, functional scope with project management teams, briefing of technical teams and suppliers, client's technical point of contact.

Build and Delivery: global follow-up (quality, process, tools), tech teams support and technical choices management.

Cross-projects: management of Studio technical teams (Dev, Technical Project Managers), industrialization with CI/CD process, Infrastructure as Code and global documents (tech spec, browser support, hosting offers, GDPR guidance...).

Developer & Technical Consultant

Heaven, Paris (France), Aug. 2013 - Sept. 2015

Laravel & WordPress with custom plugins and automated installation/migration scripts.

Technological watch and proactive projects such as the Social Box, a plug-and-play Social Wall based on a Raspberry Pi.

Work with project management/commercial teams, 3rd part suppliers and clients, from strategic and UX recommendations to the development phase.

Full-Stack Web Developer

Supergazol, Paris (France), Mar. 2010 - Jul. 2013

Full-Stack Web Developer

Moon Websites, Paris (France), Oct. 2008 - Mar. 2010

Creation and management of Xbox-360.fr (online magazine)

Xbox-360.fr, Metz (France), May 2005 - Feb. 2009

Projects

Pernod Ricard - Martell

International platform with headless WordPress & serverless statically generated Front-End.

LVMH - Rimowa Unique

3D configurator for Rimowa's luggages, coupled with Salesforce CC.

Bouygues Telecom - #AlloPapaNoel

Combining a What's App number, Text to Speech and Deepfake to bring Santa Claus to life

BETC - Magasins généraux

The Magasins généraux is a creative centre founded by BETC, hosting artistic exhibitions, talks and festivals.
